

To whom it may concern;

I as a tax paying voting citizen do NOT support these bills and strongly request that you do NOT either. is violence an issue ? in some areas yes but those areas have had long history of and how much money has been spent on programs to do research? these actions will effect law abiding citizens more then the criminals that are the problem. Partisan groups that will receive these funds do not have the peoples interests in mind but only their agendas i do NOT want my tax dollars to fund anti constitutional groups. Thank you for this opportunity to express myself and to request you do NOT support this over reach of government.

Timothy Williams
